Students in Grade 1 have created some more wonderful artworks! They created the own circle inspired backgrounds and explored stamps as well during this printmaking activity.
The Parktone Community has learnt a lot about the 7 Habits and we are learning how to apply these habits at school and in our daily lives. The ideas included here are to help your family use these habits at home.

Pick a chore or task that you have not been asked to do. Do it before you are asked. See if someone noticed. Talk with your family about your choice or the task you chose to do.

**Congratulations to our Stars of the Week!**

**Science Fact from Ms Ziogos**

Did you know that, the Sun doesn't boil the sea to create water vapour. Heat energy is used to break the bonds that hold water molecules together; water evaporates easily at the boiling point (100°C) but evaporates much slower at the freezing point (0°C). Water does not need to boil for evaporation to occur.

**CLASS CONTACT LIST**

As you are aware, the Social and Fundraising Group has distributed a class contact list compiled by your Class Representative.

This contact list is to be used for communication amongst parents and for the planning of special year level get-togethers such as coffee mornings and holiday play dates etc.

If you have not yet returned the form giving permission for your details to be included on the list, please pop into the office and fill one out. This will be passed onto your class rep.

**Homework**

Just a reminder that students in grade 1 are set a Mathletics task at the beginning of each week which forms a part of their homework.
