Welcome to Week 6, Term 2!

Recently we’ve been enjoying some busy occasions in Year 4, including Mothers Day morning and Cross Country day. Well done to all our students—everybody did an absolutely fantastic job running in Cross Country.
If your child has siblings, ask each to identify what they think their brother or sister is really good at, then share the lists with each other and discuss how they could Synergise on homework, chores, playing games, sports, etc. If your child does not have siblings, you can do the same exercise using his or her friends—or you.

This week in Grade 4:

**Literacy:** This week students will explore the job of authors and illustrators as they work together and individually in Reading rotations to explore the devices authors use to engage readers as they develop an exciting plot to a story.

**Writing** In Writing the students will be planning, drafting, producing and editing an assessment writing piece in the Recount style about their time spent in Year 4 thus far.

**Mathematics** Maths this week will see students revise the work they have done so far this year as they undergo three tests entitled Statistics and Probability, Number and Algebra, and Measurement and Geometry. These tests will inform our future teaching and learning, enabling us to fill in the gaps in what our students need to know.

Other reminders/notices

**Winter Weather**

Please ensure your child has warm and waterproof clothing to wear outdoors during the winter months, particularly on Mondays when children will be outdoors for assembly.

**Science Fact from Ms Ziosgos**

Did you know that it would take light 100,000 years to travel from one end of the Milky Way Galaxy to the other?

Wishing you a wonderful week ahead,

**Jo Moriani 4M, Arran Armitage 4A, Sophie Glover 4G**
