7 HABITS AT HOME

Each class is learning our School Vision and Mission statements. Each class has their own mission statement. This helps give us direction and remind us what we want to achieve. Here are some tips to Begin with the End in Mind and write a family mission statement.

- What does our family want to be known for?
- How do we treat each other?
- What unique contributions can we make?
- What big goals do we want to achieve?
- What unique talents and skills do we have?

BEGIN WITH THE END IN MIND:

Science Fact from Ms ZiOS

Did you know that the Moon appears to have more craters and scars than Earth because it has a lot less natural activity going on, the Earth is constantly reforming its surface through earthquakes, erosion, rain, wind and plants growing on the surface, while the moon has very little weather to alter its appearance.
