- Waste Free Wednesday (via compass)

Last Week:

As part of our inquiry unit we placed seeds on cotton wool. We have watered them each day. Let’s hope they grow! We also made fairy bread with our buddies. We talked about how Habit 3 could help us to make it.

Message from Miss Campbell:

A big thank-you for sharing the excitement on Andrew and my engagement. The flowers are beautiful!
7 HABITS AT HOME

Each class is learning our School Vision and Mission statements. Each class has their own mission statement. This helps give us direction and remind us what we want to achieve. Here are some tips to Begin with the End in Mind and write a family mission statement.

- What does our family want to be known for?
- How do we treat each other?
- What unique contributions can we make?
- What big goals do we want to achieve?
- What unique talents and skills do we have?

### Congratulations to our Stars of the Week!

### Science Fact from Ms Ziogos

Did you know that the three largest oceans on Earth are the Pacific Ocean (largest), the Atlantic Ocean (second largest) and the Indian Ocean (third largest). Found in the Pacific Ocean, the Mariana Trench is the deepest known point in the world’s oceans. Water covers around 70% of the Earth’s surface.

### Other reminders/notices
