The Prep children had fun learning about Symmetry last week. Look at some of the fantastic creations we made!

Show and Tell

We have also thoroughly enjoyed the discussions that have come from the children bringing in ‘older than I am’ items for show and tell! We hope to see many more!
7 HABITS AT HOME

If your child has siblings, ask each to identify what they think their brother or sister is really good at, then share the lists with each other and discuss how they could Synergise on homework, chores, playing games, sports, etc. If your child does not have siblings, you can do the same exercise using his or her friends—or you.

SCIENCE FACT

Did you know that it would take light 100,000 years to travel from one end of the Milky Way Galaxy to the other?
